

## **Delivery Method Guidelines**

Due to a large number of questions regarding internships, study abroad and the like, some basic guidelines are outlined below.

### **Internships**

- The content delivery is “N” – traditional face to face.

### **Dissertation & Independent Study, etc.**

- The content delivery is to be “N” – traditional face to face.
- This includes personalized study arrangements between faculty and student such as independent study, thesis and dissertation research.

### **Study abroad**

- The content delivery is based on how the student receives the content
  - For example if they are receiving face to face instruction in Spain it is “N”,
  - But, if they are getting it via the Internet in Spain it is “W”.

Inquiries regarding any of the above or additional scenarios should be made to:
